

EDGE® TREE & SHRUB AUGER BITS

The EDGE tree and shrub auger bits feature 5/16" double wrapped fluting with smaller diameter auger fluting at the bottom leaving space for root balls, fertilizer, or mulch. The tree and shrub auger bits are approximately 50" in overall length with heat treated teeth and a "fishtail" center point.

AUGER BIT BASICS

EDGE offers the following types of auger bits: tree and shrub, rock and frost. The auger bits are available in sizes ranging from 4" to 36". The tree and shrub auger bit is designed with smaller diameter auger fluting at the bottom to leave space for root balls, fertilizer or mulch. Rock auger bits have conical (also called "bullet") teeth to cut through the toughest ground and are available with standard, "fishtail" or conical center points. Other auger accessories include auger extensions and auger adapters for round to hex, hex to round and 2" round.

SPECIFICATIONS

Model	Weight (lbs/kg)	No. of Teeth	Tooth Style
TSQ18	117/53	8	Standard
TSQ24	165/75	9	Standard
TSQ30	265/120	12	Standard
TSQ36	348/158	14	Standard
TSQ42	430/195	16	Standard
TSQ48	531/241	18	Standard
RSQT24	315/143	12	Conical
