

BUCKETS - DITCHING

EDGE® DITCHING BUCKETS

The EDGE ditching bucket for the compact excavator will enhance your machine's grading capability in ditch cleaning and sloping applications.

OPERATIONAL BASICS

The EDGE ditching bucket has a straight cutting edge (no teeth) for smooth grading. It features holes in the cutting edge for accepting a replaceable bolt-on cutting edge, saving wear on the bucket edge. The EDGE ditching bucket is available in various sizes from 24" (609 mm) to 72" (1828 mm) widths to fit many brands and sizes of compact excavators.

FEATURES

- Designed for ditch construction and maintenance
- Also used for light digging, smooth grading and slope work
- Accepts bolt-on cutting edge to save on wear of the bucket edge
- Available in various sizes from 24" (609 mm) to 72" (1828 mm) widths
