

COMPACTION WHEEL

EDGE® COMPACTION WHEEL

Maximize the efficiency of your compact excavator with the EDGE compaction wheel. It eliminates the need to have personnel compacting material in the trench. Compaction wheels are designed to compact material in a trench as it is being filled.

OPERATIONAL BASICS

The EDGE compaction wheel features hardened steel bushings at all pivot points. Cleaner bars are incorporated as well to prevent buildup between the wheels. The high strength steel and durable, sealed bearings ensure long life of this attachment. The compaction wheels include mount specific to your compact excavator.

SPECIFICATIONS

Model	Weight (lbs/kg)	Blade Dia. (in/mm)	No. of Blades
CW16	500/227	22/559	3
CW117	1120/508	32/813	3
CW22	600/272	22/559	4
CW122	1220/553	32/813	3

FEATURES

- Hardened steel bushings at all pivot points
- Incorporated cleaner bars to prevent buildup between the wheels
- High strength steel and durable sealed bearings ensure long life of attachment
